Figure S1. Kernel density map showing higher density area of killer whale (*Orcinus orca*) sightings along northern Chile. Black rectangle indicates Mejillones Peninsula as the area with higher sightings of killer whales.
Supplemental Video Descriptions

**Video Sequence S1.** *Menacho* pod taking advantage of fishing vessels to hunt South American sea lions (*Otaria flavescens*). Video courtesy of Tommy, a fisherman.

**Video Sequence S2.** *Menacho* pod pursuing a pod of dusky dolphins (*Lagenorhynchus obscurus*) and long-beaked common dolphins (*Delphinus delphis*) in Mejillones Bay. In the second 11", a male killer whale is observed behind the dolphin pod (top right of the video).

**Video Sequence S3.** *Menacho* pod pursuing dusky and long-beaked common dolphins in Mejillones Bay. In the second 10", the mother and the calf can be observed in the top right of the video cornering the dolphin pod.
